

Project Requirements

Revision A-rc1, December 2025

FD/DC/LTX/10021

DRAFT

Contents

1	Introduction	3
1.1	Project Background	3
1.2	Business Context	3
1.3	Document Conventions	3
2	Customer Requirements	4
2.1	User Requirements	4
3	Appendix A: Glossary	5
4	Revision History	6

1 Introduction

1.1 Project Background

1.2 Business Context

1.3 Document Conventions

Requirements are identified using the following prefixes:

Prefix	Requirement Category
BR	Business Requirement
CR	Customer Requirement
TR	Technical Requirement
ER	Environmental Requirement
SR	Safety Requirement

Priority levels are defined as:

- **Must** — Mandatory requirement; system cannot ship without compliance
- **Should** — Important requirement; non-compliance requires justification
- **Could** — Desirable requirement; included if resources permit

2 Customer Requirements

Customer requirements capture the needs and expectations of end users and stakeholders who will interact with or be affected by the system.

2.1 User Requirements

ID	Requirement	Priority
CR-001	This is a critical customer requirement	MUST
CR-002	This is a high priority customer requirement	SHOULD
CR-003	This is a target customer requirement	COULD

3 Appendix A: Glossary

Term	Definition
ABC	The first three letters of the alphabet
123	The first three arabic numerals in the set of natural numbers $\mathbb{N}$
Do Re Mi	The first three notes in the sung scale
